

SiteTrax

Virtual Gate CAMERA

Request A No Obligation Site Analysis

www.sitetrax.io

A COMPLETE COST EFFECTIVE TURN-KEY GATE MONITOR TO IDENTIFY AND TRACK YOUR ASSETS IN NEAR REAL-TIME. DEPLOY JUST A SINGLE CAMERA AND THE SITETRAX ANALYTICS ENGINE!

Why SiteTrax?

- Near Real-Time Visibility of Assets
- Improve Turn-Times and Reduce Demurrage Fees
- Cost-Effective Monitoring and Tracking to Manage Dwell Time
- Accurate, Timely and Precise Asset Information Including ID, Location and Time
- Reduce Labor Costs and Enhance Productivity

HOW DOES SITETRAX VIRTUAL GATE WORK?

MOUNT THE CAMERA. CONNECT TO POWER. RECEIVE DATA!

- 1 INSTALL** SiteTrax Virtual Gate camera onto any fence or building structure.
- 2 CAPTURE** video of your assets including international intermodal container IDs and their direction (inbound or outbound).
- 3 CLOUD-BASED DATA ANALYTICS** using machine-learning, neural networks and artificial intelligence, SiteTrax extracts information such as container IDs, geolocation and GPS data.
- 4 DATA DELIVERY** of near real-time asset information including a picture of the asset into virtually any content management system including enterprise ledgers, ERP, CMS, YMS, WMS or TMS platforms.
- 5 COMPLETE TURN-KEY** deployment with all camera, mounting hardware, communications equipment, internet access and web interface included. Just add power!*
- 6 NO LONG TERM COMMITMENT** to expensive hardware and long term agreements. Activate and reactivate the service at any time and virtually anywhere.**
- 7 CUSTOM ASSET TRACKING** to capture virtually any asset with SiteTrax with Netarus' model training and professional services team such as chassis or DOT characters and numbers.
